Good morning, BPELSG,

I wonder if you could tell me the status of this request? A response was due some time ago, I have not heard from you at all, and I need this information quite urgently.

thanks for your help,

[REDACTED]

Good day BPELSG,

Please see the below email regarding a Public Records Act inquiry.

Thanks,

Good morning, DCA.

This is a request under the California Public Records Act for some records that I believe to be held by the Board for Professional Engineers. I do not know the names of these records, so I will describe them to you by their content along with some subsidiary information relating to why I think such records exist.

On May 31, 2017 enforcement analyst Jackie Lowe sent a closure letter regarding Board Enforcement Case 2017-01-030. This case had to do with a report written by a licensed engineer as part of the process of establishing a business improvement district in Los Angeles. In this letter she stated that '[h]istorically, our Board has deemed these "tax assessment" reports not civil engineering work as defined by Business and Professions Code section 6731, but rather reports that contain simple math computations.'
